

KARANPREET KAUR

Abbotsford, BC | karanpreet13kaur@gmail.com | linkedin.com/in/karanpreet13kaur | karanpreet-kaur11.github.io

SUMMARY OF QUALIFICATIONS

- Computer Information Systems student with hands-on experience building and deploying full-stack web applications using Java, Spring Boot, React, Node.js, and SQL through academic and personal projects
- Strong foundation in troubleshooting, end-user support, and databases, developed through coursework in End User Training & Support, Operating Systems, and Networking
- Implemented secure authentication and role-based access control across multiple projects (password hashing, per-user data protection); 3+ years of customer service and leadership experience, skilled at explaining technical steps to non-technical users

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, PHP, SQL, HTML, CSS

Frameworks & Tools: Spring Boot, Spring Security, React, Node.js, Express, Thymeleaf, HTMX, Hibernate (JPA), Tailwind CSS

Databases: MySQL, SQLite, relational database design

IT & Other: Windows troubleshooting, end-user support, Git/GitHub, REST APIs, IntelliJ IDEA, VS Code, Docker (introductory), Linux command line, Microsoft 365

EDUCATION

Bachelor of Computer Information Systems

May 2023 – April 2027 (Expected)

University of the Fraser Valley (UFV)

Abbotsford, BC

- Cumulative GPA: 3.34 / 4.33 | Dean's List: Winter 2025
- Relevant courses: End User Training & Support, Operating Systems, Networking, Databases & DBMS, Advanced Website Programming, Information Systems Security

ACADEMIC & PERSONAL PROJECTS

Inventory Expiry Management System

2026

React, TypeScript, Node.js, Express, SQLite (built with AI-assisted development)

- Built and deployed a full-stack expiry-tracking web app (dashboard, calendar, charts, reports), live on Vercel and Render
- Implemented secure multi-user login (password hashing, per-user data isolation) and an injection-safe REST API

Study Tracker Application

2026

Java, Spring Boot, HTMX, MySQL

- Developed a task management web application with dynamic partial page updates using HTMX, with no full page reloads
- Implemented CRUD operations, enforced task status transitions, and a dashboard showing task counts by status

Campus Store Management System

2026

Java, Spring Boot, Spring Security, Thymeleaf, MySQL

- Built a full-stack e-commerce application with admin and customer roles, product catalog, and order management
- Implemented secure login with BCrypt password encryption and role-based access control

Cybersecurity Defense Game

2026

Java, Processing

- Built the core gameplay system (OOP, inheritance, finite state machine); ran a comparative usability study with 15 participants

UrbanBite Restaurant Platform

2025

HTML, CSS, JavaScript, PHP

- Built a restaurant ordering platform with separate customer and admin views, form validation, and interactive dialogs

WORK EXPERIENCE

Shift Lead / Cashier

May 2023 – Present

Sabzi Mandi Supermarket

Abbotsford, BC

- Troubleshot POS and digital system issues, supporting both staff and customers in a fast-paced environment
- Trained and onboarded 3–4 new employees, explaining systems and procedures clearly to non-technical users
- Maintained accurate records and data consistency, and handled opening and closing duties independently

Cashier

November 2020 – June 2022

Daljeet Medical Hall (Pharmacy)

India

- Operated computerized billing and inventory systems and handled confidential customer records in a regulated pharmacy

CERTIFICATIONS

- **Google AI Essentials** — Coursera 2026
- **Introduction to Cybersecurity** — Cisco 2026
- **Google Cloud Skill Badges: Introduction to Generative AI, Large Language Models & Responsible AI** — Google 2026
- **Certificate in C, C++, Python & Java** — Brilliko Institute of Multimedia 2022
