SUMMARY OF QUALIFICATIONS

- Computer Information Systems student (graduating April 2027; available full-time from May 2027) seeking an entry-level role in IT support, technology risk, or cybersecurity
- Built full-stack web applications with Java, Spring Boot, and MySQL, including user login and separate admin and customer roles
- Strong foundation in troubleshooting, end-user support, networking, and databases, plus 3+ years of customer service and shift-lead experience training staff and explaining technical steps to non-technical users

TECHNICAL SKILLS

IT & Support: Windows troubleshooting, end-user support, Linux command line, Microsoft 365, Git/GitHub, Docker (introductory)
Languages: Java, Python, C, C++, JavaScript, PHP, SQL, HTML, CSS
Frameworks & Tools: Spring Boot, Spring Security, Thymeleaf, HTMX, Hibernate (JPA), REST APIs, IntelliJ IDEA, VS Code
Databases: MySQL, SQLite, relational database design

EDUCATION

Bachelor of Computer Information Systems May 2023 – April 2027 (Expected)
University of the Fraser Valley (UFV) *Abbotsford, BC*

- Cumulative GPA: 3.34 / 4.33 | Dean's List: Winter 2025
- Relevant courses: Information Systems Security, Networking, Operating Systems, End User Training & Support, Databases & DBMS, Advanced Website Programming

ACADEMIC & PERSONAL PROJECTS

Inventory Expiry Management System | *React, TypeScript, Node.js, Express, SQLite (AI-assisted)* 2026

- Built and deployed a full-stack expiry-tracking web app (dashboard, calendar, charts, reports), live on Vercel and Render
- Supports multiple user accounts with login, where each user sees only their own inventory data

Campus Store Management System | *Java, Spring Boot, Spring Security, Thymeleaf, MySQL* 2026

- Built a full-stack e-commerce application with admin and customer roles, product catalog, and order management
- Set up user login with encrypted passwords and separate admin and customer access using Spring Security

Study Tracker Application | *Java, Spring Boot, HTMX, MySQL* 2026

- Developed a task management web app with HTMX partial page updates, CRUD operations, enforced status transitions, and a status dashboard

Cybersecurity Defense Game | *Java, Processing* 2026

- Built the core gameplay system (OOP, inheritance, finite state machine); ran a usability study with 15 participants

UrbanBite Restaurant Platform | *HTML, CSS, JavaScript, PHP* 2025

- Built a restaurant ordering platform with separate customer and admin views, form validation, and interactive dialogs

WORK EXPERIENCE

Cashier Sep 2026 – Present
Mark's *Abbotsford, BC*

- Process sales, returns, and exchanges on the POS system and balance cash accurately during busy seasonal periods
- Assist customers with product questions, promotions, and loyalty sign-ups, handling payment information securely

Shift Lead / Cashier May 2023 – Sep 2026
Sabzi Mandi Supermarket *Abbotsford, BC*

- Troubleshot POS and digital system issues, supporting both staff and customers in a fast-paced environment
- Trained and onboarded 3–4 new employees, explaining systems and procedures clearly to non-technical users
- Maintained accurate records and data consistency, and handled opening and closing duties independently

Cashier November 2020 – June 2022
Daljeet Medical Hall (Pharmacy) *India*

- Operated computerized billing and inventory systems and handled confidential customer records in a regulated pharmacy
