

KARANPREET KAUR

Abbotsford, BC | karanpreet13kaur@gmail.com | linkedin.com/in/karanpreet13kaur | karanpreet-kaur11.github.io

SUMMARY OF QUALIFICATIONS

- Computer Information Systems student with hands-on experience building and deploying full-stack web applications using Java, Spring Boot, React, Node.js, and SQL through academic and personal projects
- Strong foundation in troubleshooting, end-user support, and databases, developed through coursework in End User Training & Support, Operating Systems, and Networking
- Implemented secure authentication and role-based access control in projects, including password hashing and per-user data protection
- Reliable team player with over 3 years of customer service and leadership experience, skilled at explaining technical steps clearly to non-technical users
- Quick to learn new tools and technologies, with a genuine interest in IT support and web development

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, PHP, SQL, HTML, CSS

Frameworks & Tools: Spring Boot, Spring Security, React, Node.js, Express, Thymeleaf, HTMX, Hibernate (JPA), Tailwind CSS

Databases: MySQL, SQLite, relational database design

IT & Other: Windows troubleshooting, end-user support, Git/GitHub, REST APIs, IntelliJ IDEA, VS Code, Docker (introductory), Linux command line, Microsoft 365

EDUCATION

Bachelor of Computer Information Systems

September 2023 – Present

University of the Fraser Valley (UFV)

Abbotsford, BC

- Cumulative GPA: 3.34 / 4.33
- Dean's List: Winter 2025
- Relevant courses: End User Training & Support, Operating Systems, Introduction to Networking, Networking Theory & Applications, Databases & Database Management Systems, Advanced Website Programming, Information Systems Security

ACADEMIC & PERSONAL PROJECTS

Inventory Expiry Management System

2026

React, TypeScript, Node.js, Express, SQLite (built with AI-assisted development)

- Built and deployed a full-stack web app that tracks product expiry dates for businesses, with a dashboard, calendar, charts, and reports; deployed live using Vercel and Render
- Implemented secure multi-user login with password hashing and per-user data isolation, and designed a REST API with injection-safe database queries

Study Tracker Application

2026

Java, Spring Boot, HTMX, MySQL

- Developed a task management web application with dynamic partial page updates using HTMX, with no full page reloads
- Implemented CRUD operations, enforced task status transitions, and a dashboard showing task counts by status

Campus Store Management System

2026

Java, Spring Boot, Spring Security, Thymeleaf, MySQL

- Built a full-stack e-commerce application with admin and customer roles, product catalog, and order management
- Implemented secure login with BCrypt password encryption and role-based access control

Cybersecurity Defense Game

2026

Java, Processing

- Developed the core gameplay system for a team project using object-oriented design, class inheritance, and a finite state machine
- Built two interface versions and helped run a comparative usability study with 15 participants

UrbanBite Restaurant Platform

2025

HTML, CSS, JavaScript, PHP

- Built a restaurant ordering platform with separate customer and admin views, including form validation and interactive dialogs

WORK EXPERIENCE

Shift Lead / Cashier

May 2023 – Present

Sabzi Mandi Supermarket

Abbotsford, BC

- Troubleshoot POS and digital system issues, supporting both staff and customers in a fast-paced environment
- Trained and onboarded 3-4 new employees, explaining systems and procedures clearly to non-technical users
- Maintained accurate records and data consistency, and handled opening and closing duties independently

Cashier

November 2020 – June 2022

Daljeet Medical Hall (Pharmacy)

India

- Operated computerized billing and inventory systems and maintained accurate digital records
- Handled confidential customer information responsibly in a regulated environment

CERTIFICATIONS

Certificate in C, C++, Python & Java, **Brilliko Institute of Multimedia** 2022

Google Cloud Skill Badges: Generative AI, Large Language Models, Responsible AI 2026
